Consolidated financial statements
For the period from 01 January 2022 to 31 March 2022

EXPLANATION ON HIGHER PROFIT AFTER TAX IN 2022 IN COMPARISON TO 2021:

FPT Corporation explains the variation of business results in 2022, in comparison with the same period last year as follows:

Item	Year 2022		Year 2021		Increase/(Decrease)		Year 2022		Year 2021		Increase/(Decrease)	
	Quarter I	9,730,254	Quarter I	7,586,328	Amount	Percentage	Accumulated	Accumulated	Amount	Percentage	Amount	Percentage
Net Revenue					2,143,926	28.3%	9,730,254	7,586,328	2,143,926	28.3%	2,143,926	28.3%
Accounting profit before tax		1,779,048		1,396,751	382,297	27.4%	1,779,048	1,396,751	382,297	27.4%	382,297	27.4%
Profit after tax		1,538,558		1,150,703	387,855	33.7%	1,538,558	1,150,703	387,855	33.7%	387,855	33.7%

Unit: Million VND

Despite the initial disruption amid COVID-19 pandemic, FPT achieved an impressive growth for quarter 1/2022. In which, consolidated revenues and PBT reached VND 9,730 billion and VND 1,779 billion, enjoying the growth of 28.3% and 27.4% y-o-y respectively.

The growth is mainly due those of Technology sector and Telecom sector:

- **Technology sector:**

Technology sector has brought in the revenue of 5,593 billion, up 34.6% and PBT of 770 billion, up 39.2% accounted for 57% and 43% of the consolidated revenue and PBT respectively. In which, Global IT Services have brought in the revenue of 4,111 billion, up 29.7%, and PBT of 667 billion, up 34.9%, accounted for 42% and 38% of the consolidated revenue and PBT respectively.

- **Telecom sector:**

Telecom sector has brought in the revenue of 3,471 billion, up 18.7% and PBT of 701 billion, up 21.7% accounted for 36% and 40% of the consolidated revenue and PBT respectively. In which, Telecom services have brought in the revenue of 3,320 billion, up 18.4% and PBT of 633 billion, up 20.9%, accounted for 34% and 36% of the consolidated revenue and PBT respectively.

1. GENERAL INFORMATION**Structure of ownership**

FPT Corporation was incorporated as a State-owned company in Vietnam and subsequently equitised in accordance with Decision No. 178/QĐ-TTg, following which the Company officially operated as a joint stock company. FPT Corporation was established under the Business Registration Certificate No. 0103001041 issued for the first time by Hanoi Department of Planning and Investment dated on 13 May 2002 and its amendments.

According to the amended Business Registration Certificate dated 19 December 2008, the Corporation changed its name from the Corporation for Financing and Promoting Technology to FPT Corporation.

According to the 51st amendeant of Business Registration Certificate, the Corporation changed the charter capital into VND 9,075,516,490,000.

Since December 2006, the Corporation's shares have been listed on Ho Chi Minh City Stock Exchange.

The total number of the Corporation's employees as at 31 March 2022 was 37,882 (at 31 December 2021 was 37,180).

Operating industry and principal activities

The principal activities of the Corporation are to provide IT and telecommunication products and services. The main products and services provided are (i) software development including software outsourcing, provision of software package and solutions, software services and ERP services; (ii) Information technology services including digital transformation consulting and IT consulting, system management, BPO service, Data Center service, cloud computing service, and services based on new technologies such as artificial intelligence, automation, etc.; (iii) system integration; (iv) telecommunication services including internet services and value added services; (v) digital content services including online advertising etc.; (vi) general education, college, university and postgraduate training services.

Normal production and business cycle

The Corporation's normal production and business cycle is carried out for a time period of 12 months or less except for some system integration projects which are carried out for a time period of more than 12 months.

The Corporation's structure

As at 31 March 2022, FPT Corporation had 8 direct subsidiaries, as follows:

- FPT Information System Corporation;
- FPT Telecom Joint Stock Company;
- FPT Software Company Limited;
- FPT Education Company Limited;
- FPT Online Services Joint Stock Company;
- FPT Investment Company Limited;
- FPT Smart Cloud Company Limited;
- FPT Digital Company Limited.

and 2 direct associates:

- FPT Digital Retail Joint Stock Company;
- Synnex FPT Joint Stock Company.

2. ACCOUNTING CONVENTION AND ACCOUNTING PERIOD**Accounting convention**

The consolidated financial statements have been prepared in accordance with Vietnamese Accounting Standards, the Vietnamese Corporate Accounting System and applicable regulations on preparation and presentation of consolidated financial statements.

The accompanying consolidated financial statements are not intended to present the financial position and results of operations and cash flows in accordance with accounting principles and practices generally accepted in countries and jurisdictions other than Vietnam. The accounting principles and practices utilised in Vietnam may differ from those generally accepted in countries and jurisdictions other than Vietnam.

Accounting period

The Corporation's financial year begins on 01 January and ends on 31 December. These consolidated financial statements have been prepared for the period from 01 January 2022 to 31 March 2022.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The significant accounting policies, which have been adopted by the Corporation in the preparation of these consolidated financial statements, are as follows:

Estimates

The preparation of financial statements in conformity with Vietnamese Accounting Standards, accounting regime for enterprises and legal regulations relating to financial reporting requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and disclosures of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the financial year. Although these accounting estimates are based on the management's best knowledge, actual results may differ from those estimates.

Basis of consolidation

The consolidated financial statements incorporate the financial statements of the Company and enterprises controlled by the Company (its subsidiaries). Control is achieved where the Corporation has the power to govern the financial and operating policies of an investee enterprise so as to obtain benefits from its activities.

The results of subsidiaries acquired or disposed of during the year are included in the consolidated income statement from the effective date of acquisition or up to the effective date of disposal, as appropriate.

Where necessary, adjustments are made to the financial statements of subsidiaries to bring the accounting policies used in line with those used by the Company.

Intragroup transactions and balances are eliminated in full on consolidation.

Non-controlling interests consist of the amount of those non-controlling interests at the date of the original business combination and the non-controlling interests' share of changes in equity since the date of the combination. Losses in subsidiaries are respectively attributed to the non-controlling interests even if this results in the non-controlling interests having a deficit balance.

Business combination

On acquisition, the assets and liabilities and contingent liabilities of a subsidiary are measured at their fair values at the date of acquisition. Any excess of the cost of acquisition over the fair values of the identifiable net assets acquired is recognised as goodwill. Any deficiency of the cost of acquisition below the fair values of the identifiable net assets acquired is credited to consolidated profit and loss in the period of acquisition.

The non-controlling interests are initially measured at the non-controlling shareholders's proportion of the net fair value of the assets, liabilities, and contingent liabilities recognised.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**Investments in associates**

An associate is an entity over which the Corporation has significant influence and that is neither a subsidiary nor an interest in joint venture. Significant influence is the power to participate in the financial and operating policy decisions of the investee but not control or joint control over those policies.

The results and assets and liabilities of associates are incorporated in these financial statements using the equity method of accounting. Interests in associates are carried in the balance sheet at cost as adjusted by post-acquisition changes in the Company's share of the net assets of the associate. Losses of an associate in excess of the Company's interest in that associate (which includes any long-term interests that, in substance, form part of the Company's net investment in the associate) are not recognised.

Where a group entity transacts with an associate of the Company, unrealised profits and losses are eliminated to the extent of the Company's interest in the relevant associate.

Goodwill

Goodwill represents the excess of the cost of acquisition over the Company's interest in the net fair value of the identifiable assets, liabilities and contingent liabilities of a subsidiary at the date of acquisition. After acquisition date, if the Parent continues making investment in the subsidiary, it should determine the cost of additional investment and corresponding increase in ownership of the carrying value of the acquired net asset of the subsidiary (not applying fair value as on acquisition date). The difference between the cost of additional investment and the carrying value of the acquired net asset should be recorded directly into retained earnings (similar to transactions among internal shareholders).

Goodwill arising on the acquisition date is presented separately as an intangible asset in the consolidated balance sheet and is amortised on the straight-line basis in the consolidated income statement according to current regulation. In case where the amount of goodwill impairment loss in the period is more than the annual amortised amount on the straight-line basis, the loss amount shall be recognised.

On disposal of a subsidiary, the attributable amount of unmortised goodwill is reduced corresponding to the disposed share proportion and included in retained earnings in case where the Parent remains its control of the subsidiary, or reduced in full and included in the determination of the profit or loss in case where the Parent loses the control.

Cash and cash equivalents

Cash and cash equivalents comprise cash on hand, demand deposits and short-term, highly liquid investments that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

Financial investments***Held-to-maturity investments***

Held-to-maturity investments comprise investments that the Company has the positive intent or ability to hold to maturity, including term deposits (commercial bills), bonds, preference shares which the issuer shall redeem at a certain date in the future, loans held to maturity to earn periodic interest and other held-to-maturity investments.

Held-to-maturity investments are recognised on a trade date basis and are initially measured at acquisition price plus directly attributable transaction costs. Post-acquisition interest income from held-to-maturity investments is recognised in the income statement on accrual basis. Pre-acquisition interest is deducted from the cost of such investments at the acquisition date.

Held-to-maturity investments are measured at cost less provision for doubtful debts.

Provision for doubtful debts relating to held-to-maturity investments is made in accordance with prevailing accounting regulations.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)***Equity investments in other entities***

Equity investments in other entities represent the Corporation's investments in ordinary shares of the entities over which the Company has no control, joint control, or significant influence.

Equity investments in other entities are carried at cost less provision for impairment.

Provision for impairment of long-term financial investment

Provisions for impairment of long-term financial investments are made in accordance with Circular No. 48/2019/TT-BTC dated 08 August 2019 issued by the Ministry of Finance on "Guiding the appropriation and use of provisions for devaluation of inventories, loss of financial investments, bad debts and warranty for products, goods and construction works at enterprises" and prevailing accounting regulations. In some cases, according to estimate of the Board of Director, the Corporation prudently makes more provision for impairment of long-term financial investment than requisition of prevailing accounting regulations.

Receivables

Receivables represent the amounts recoverable from customers or other debtors and are stated at book value less provision for doubtful debts.

Provision for doubtful debts is made for receivables that are overdue for six months or more, or when the debtor is in dissolution, in bankruptcy, or is experiencing similar difficulties and so may be unable to repay the debt.

Inventories

Inventories are stated at the lower of cost and net realizable value. Cost comprises direct materials and where applicable, direct labor costs, and those overheads that have been incurred in bringing the inventories to their present location and condition. Cost of inventories within the Corporation is calculated using the first in first out (FIFO) method and inventory recording method is the perpetual method. Net realizable value represents the estimated selling price less all estimated costs to completion and costs to be incurred in marketing, selling, and distribution.

The evaluation of necessary provision for inventory obsolescence follows current prevailing accounting regulations which allow provisions to be made for obsolete, damaged, or sub-standard inventories and for those which have costs higher than net realisable values as at the balance sheet date.

Tangible fixed assets and depreciation

Tangible fixed assets are stated at cost less accumulated depreciation.

The cost of purchased tangible fixed assets comprises their purchase price and any directly attributable costs of bringing the assets to their working condition and location for their intended use.

The costs of self-constructed or manufactured assets are the actual construction or manufacturing cost plus installation and test running costs.

Tangible fixed assets are depreciated using the straight-line method over their following estimated useful lives:

	2022 (Years)
Buildings and structures	8 - 30
Machinery and equipment	3 - 20
Motor vehicles	4 - 7
Office equipment	3 - 10
Other assets	3 - 5

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**Finance lease assets and depreciation**

Finance lease assets acquired from finance lease transactions, whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee. All other leases are classified as operating leases.

Assets held under finance leases are recognised as assets of the Corporation at their fair value at the inception of the lease or, if lower, at the present value of the minimum lease payments. The corresponding liability to the lessor is included in the consolidated balance sheet as a finance lease obligation. Lease payments are apportioned between finance charges and reduction of the lease obligation so as to achieve a constant rate of interest on the remaining balance of the liability. Finance charges are charged to profit or loss, unless they are directly attributable to qualifying assets, in which case they are capitalized in accordance with the Corporation's general policy on borrowing costs.

Intangible fixed assets and amortization

Intangible assets reflect the value of land use rights, license, operating rights, copyrights and patents, customer relationship, brand name, and computer software.

Land use rights

Land use rights comprise of land use rights granted by the State for which land use fees are collected, land use rights acquired in a legitimate transfer, and prepaid land use rights obtained under land rental contracts which are effective before the effective date of land law 2003 (ie. 1 July 2004) and which land use right certificates are granted.

Definite land use rights are stated at costs less accumulated amortisation. Costs of land use rights consist of its purchased prices and any directly attributable costs in obtaining the land use rights. Land use rights are amortised using the straight-line basis over the terms of the land use right certificates.

Indefinite land use rights are stated at costs and not amortised.

Licenses, operation rights, copyrights and patents

Purchase price of a license is accounted for as an intangible asset. The license is amortised to the consolidated income statement on a straight-line basis over a period of 3 to 5 years.

The right to operate the high-speed internet lines - Asia America Gateway ("AAG") and Asia Pacific Gateway ("APG") project and right of infinite use of AAE1 (Asia - Africa - Europe 1) are amortised over 15 years.

Purchase prices of copyrights and patents are capitalized and accounted for as intangible assets. Copyrights and patents are amortised to the consolidated income statement on a straight-line basis over a period of 3 to 5 years.

Customer relationships and brand name

Customer relationship and brand name are amortised on a straight-line basis over their estimated useful lives of 20 years and 10 years, respectively.

Computer software

Purchase price of a new computer software which is not an integral part of a related hardware is capitalized and accounted for as an intangible asset. Computer software is amortised to the consolidated income statement on a straight-line basis over a period of 3 to 5 years.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**Construction in progress**

Properties in the course of construction for production, rental, or administrative purposes, or for other purposes, are carried at cost. Cost includes costs that are necessary to form the assets in accordance with the Corporation's accounting policy. Depreciation of these assets, on the same basis as other property assets, commences when the assets are ready for their intended use.

Prepayments

Prepayments are expenses which have already been paid but relate to results of operations of multiple accounting periods, including land rentals, office rentals, expenses for implementation for subscribers and other types of prepayments.

Prepaid land rental includes land rental and its attributable cost and office rental. Prepaid land rentals and office rentals are charged to the consolidated income statement using the straight-line method over the lease term.

Expenses for deploying services for subscribers are charged to the consolidated income statement using the straight-line method over the estimated useful lives.

Other types of prepayments comprise costs of small tools, supplies and spare parts issued for consumption; and other types of prepayments for service rendered contracts which are expected to provide future economic benefits to the Corporation. These expenditures have been capitalised as prepayments, and are allocated to the consolidated income statement using the straight-line method in accordance with the current prevailing accounting regulations.

Provisions

Provisions are made when the Corporation has a present obligation as a result of a past event, and it is probable that the Corporation will be required to settle that obligation. Provisions are measured at the management's best estimate of the expenditure required to settle the obligation at the consolidated balance sheet date.

Provision for warranties

The provision for warranties relates mainly to goods sold and services rendered. The provision is based on estimates derived from historical warranty data associated with similar products and services.

Bonus and welfare funds

The Corporation distributes up to 10% of net profit after tax of subsidiaries to bonus and welfare funds.

Revenue recognition

Revenue is recognised when the outcome of such transactions can be measured reliably and it is probable that the economic benefits associated with the transactions will flow to the Corporation.

Revenue from the sale of goods

Revenue from the sale of goods is recognised when all five (5) following conditions are satisfied:

- (a) The Corporation has transferred to the buyer significant risks and rewards of ownership of the goods;
- (b) The Corporation retains neither continuing managerial involvement to the degree usually associated with ownership nor effective control over the goods sold;
- (c) The amount of revenue can be measured reliably;
- (d) It is probable that the economic benefits associated with the transaction will flow to the Corporation; and
- (e) The costs incurred or to be incurred in respect of the transaction can be measured reliably.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)***Revenue from services***

Revenue of a transaction involving the rendering of services is recognised when the outcome of such transactions can be measured reliably. Where a transaction involving the rendering of services is attributable to several periods, revenue is recognised in each period by reference to the percentage of completion of the transaction at the balance sheet date of that period. The outcome of a transaction can be measured reliably when all four (4) following conditions are satisfied:

- (a) The amount of revenue can be measured reliably;
- (b) It is probable that the economic benefits associated with the transaction will flow to the Corporation;
- (c) The percentage of completion of the transaction at the balance sheet date can be measured reliably; and
- (d) The costs incurred for the transaction and the costs to complete the transaction can be measured reliably.

Revenue from software outsourcing, software development, system integration and informatics services

Revenue is recognised in the consolidated income statement by reference to the percentage of completion of transaction at the year end. The percentage of completion is assessed by the survey of work performed, or the percentage incurred/time spent on the portion of work completed at the end of the year compared to the total estimated cost/expected implementation time of the contract. When the performance of the contract cannot be reliably estimated, the revenue is recognized only as the equivalent of the incurred contract cost, with which the reimbursement is relatively certain.

Revenue from telecommunication services

Revenue from telecommunication services is recognised on pro-rata basis over the period during which the services are actually provided to customers.

Revenue from online advertising services

Revenue from online advertising services is recognised on the basis of work completed.

Revenue from tuition and fees

Revenue is recognised in the year when services are rendered. All tuition and fees are collected in advance at the beginning of each semester. Tuition and fees collected in advance from the students are recorded as unearned revenue on the consolidated balance sheet and recorded in the consolidated income statement in the year in which the semester falls.

Interest income and dividend income

Interest income is accrued on a time basis, by reference to the principal outstanding and at the applicable interest rate.

Dividend income from investments is recognised when the Corporation's right to receive payment has been established.

Foreign currencies

Transactions arising in foreign currencies are translated at exchange rates ruling at the transaction date. The balances of monetary items denominated in foreign currencies as at the consolidated balance sheet date are retranslated at the exchange rates on the same date. Exchange differences arising from the translation of these accounts are recognised in the consolidated income statement.

Goodwill and fair value adjustments arising on the acquisition of a foreign operation are treated as assets and liabilities of the foreign operation and translated at the closing rate.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**Financial statements of foreign operations**

For the purpose of presenting consolidated financial statements, the assets and liabilities of the foreign operations (including comparative figures) are expressed in reporting currency using exchange rates prevailing on the balance sheet date. Income and expense items (including comparative figures) are translated at the regulated exchange rates. Exchange differences arising, if any, are classified as equity and transferred to the Corporation's foreign exchange reserve. Such translation differences are recognised in profit or loss in the period in which the foreign operation is disposed of.

Borrowing costs

Borrowing costs are recognised in the income statement in the year when incurred unless they are capitalised in accordance with Vietnamese Accounting Standard "Borrowing costs". Accordingly, borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are added to the cost of those assets, until such time as the assets are substantially ready for their intended use or sale. Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the cost of those assets. For specific borrowings for the purpose of construction of fixed assets and investment properties, borrowing costs are capitalised even when the construction period is under 12 months.

Earnings per share

The Corporation presents basic earnings per share (EPS) and diluted earnings per share (Diluted EPS) for its ordinary shares. Basic EPS is calculated by having the profit or loss attributable to the ordinary shareholders of the Corporation divided by the weighted average number of outstanding ordinary shares during the year. Diluted EPS is determined by adjusting the profit or loss attributable to the ordinary shareholders and the weighted average number of ordinary shares outstanding taking into consideration the effect of all dilutive potential ordinary shares, which comprise convertible bonds and share options.

Related parties

Related parties include associates and key management personnel of the Corporation.

Taxation

Income tax expense represents the sum of the tax currently payable and deferred tax.

The tax currently payable is based on taxable profit for the year. Taxable profit differs from profit before tax as reported in the consolidated income statement because it excludes items of income or expense that are taxable or deductible in other years (including loss carried forward, if any) and it further excludes items that are never taxable or deductible.

Deferred tax is recognised on significant differences between carrying amounts of assets and liabilities in the consolidated financial statements and the corresponding tax bases used in the computation of taxable profit and is accounted for using balance sheet liability method. Deferred tax liabilities are generally recognised for all temporary differences and deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which deductible temporary differences can be utilised.

Deferred tax is calculated at the tax rates that are expected to apply in the period when the liability is settled or the asset realised. Deferred tax is charged or credited to profit or loss, except when it relates to items charged or credited directly to equity, in which case the deferred tax is also dealt with in equity.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities and when they relate to income taxes levied by the same tax authority and the Corporation intends to settle its current tax assets and liabilities on a net basis.

The determination of the tax currently payable is based on the current interpretation of tax regulations.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

However, these regulations are subject to periodic variation and their ultimate determination depends on the results of the tax authorities' examinations.

Other taxes are paid in accordance with the prevailing tax laws in Vietnam.

4. SEGMENT REPORTING

A business segment is a distinguishable component of an enterprise that is engaged in producing or providing an individual product or service or a group of related products or services and that is subject to risks and returns that are different from those of other business segments.

The Corporation has two major segments under management of FPT Corporation (the Corporation) as follows:

Information Technology and Telecommunication

- **Telecommunication:** providing internet services to individuals and households, internet services to enterprises such as providing internet leased line service, domestic and international telecommunication, domain, hosting, Web Portal services, IPTV etc.;
- **Digital content:** providing online services for enterprises and individual customers, including online newspapers (such as VnExpress.net, Ngoisao.net, iOne.net, Gamethu.vn, etc.); online advertising, AdNetwork, online music, e-payment, etc.;
- **Global IT services:** Software production, providing consultancy and deployment of S.M.A.C/IoT, digital transformation services, IT system transformation services, quality assurance testing, embedded software design, ERP implementation and management services;
- **Information technology services, software and software solutions, system integration:** providing application software solutions, providing information system integration services and solutions, supplying IT equipment, data center services, networking and security system design/development; warranty and maintenance of IT products authorized by hardware vendors.

Investment, education and others

- Providing training services in IT, business management majors at general education, high education, university, and post-graduate levels;
- Managing financial investments;
- Managing and developing real estate projects relating to the Corporation's infrastructure needs.

FORM B 09-DN/HN

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (Continued)

These notes are an integral part of and should be read in conjunction with the accompanying consolidated financial statements

4. SEGMENT REPORTING (Continued)

Segment reporting

Current period

Unit: million VND

Items	Information Technology and Telecommunication				Investment, education and others	Elimination	Total
	Telecommunication	Digital content	Global IT services	Software solution, system integration and informatics services			
Segment revenue	3,320,123	151,004	4,111,367	1,529,746	1,039,158	(421,144)	9,730,254
Segment expenses (i)							
Directly attributable expenses	(2,753,708)	(88,795)	(3,482,684)	(1,465,164)	(948,020)	423,773	(8,314,597)
In which:							
- Depreciation and amortisation	(277,074)	(1,132)	(89,572)	(10,070)	(58,473)	6,286	(430,035)
- Allocation of long-term prepaid expenses	(360,630)	-	(87,602)	(5,232)	(35,210)	1,589	(487,084)
Share of net profit from associates	-	-	466	-	208,364	-	208,830
Segment operating result (ii)	566,415	62,209	629,149	64,582	299,503	2,628	1,624,487
Segment profit before tax	632,920	68,056	667,288	90,992	1,724,988	(1,405,197)	1,779,048
Segment assets as at 31/3/2022	21,734,686	963,008	14,317,867	5,778,876	19,538,575	(6,731,712)	55,601,299
Segment liabilities as at 31/3/2022	15,739,383	272,027	9,358,698	4,335,274	7,481,341	(4,544,826)	32,641,898
Total expenses for acquisition of fixed assets	671,137	721	214,201	104,056	207,164	-	1,197,280

(i) Segment expenses arising from the business activities of the segment are charged directly to that segment and part of the business costs are allocated to that segment, including outbound sales costs and expenses related to transactions with other segments of the business. Accordingly, segment expenses include cost of sales, selling and administration expenses.

(ii) Segment result is segment revenue less segment expenses (excluding financial income, financial expenses, other income and other expenses). Consequently, in "Investment, education and others" segment, segment result is significantly lower than segment profit before tax, due to an amount of VND 1,425 billion which is the total of financial income and other income (most of which is dividend collected from subsidiaries of the parent).

Shares subject to restriction in ownership transfer	13,072,592	12,990,216

All ordinary shares have a par value of VND 10,000. Each share is entitled to one vote at shareholders' meetings of the Company. Shareholders are entitled to receive dividends as declared at each point in time. All ordinary shares are ranked equally with regard to the Company's residual assets. In respect of shares bought back by the Company, all rights are suspended until those shares are re-issued.

Shares subject to restriction in ownership transfer have a par value of VND 10,000. These shares are subject to restrictions according to which shareowners are not allowed to resell their shares within specified term from the date of issuance.

	<u>267,572,525,432</u>	<u>141,136,993,354</u>

28. EARNINGS PER SHARE

Basic earnings per share for the period ended 31 March 2021 was calculated based on the profit attributable to ordinary shareholders and a weighted average number of outstanding ordinary shares during the year, as follows:

	From 01/01/2022 to 31/3/2022	From 01/01/2021 to 31/3/2021
	VND	VND
Accounting profit after tax	1,238,879,424,986	906,142,681,183
Allocation to bonus and welfare fund	-	-
Weighted average number of outstanding ordinary shares	907,537,004	902,259,505
Basic earnings per share	<u>1,365</u>	<u>1,004</u>

Restatement of weighted average number of ordinary shares

On 01 June 2021, FPT Corporation paid dividend in shares, which led to a retrospective adjustment to the weighted average number of outstanding ordinary shares of the period from 01 January 2021 to 31 March 2021, as follows:

	Weighted average number of ordinary shares	Basic earnings per share
As stated in the consolidated financial statements for the period from 01 January 2021 to 31 March 2021	783,905,110	1,156
Effect of stock dividends issued on 01 June 2021	118,354,395	(152)
As restated	<u>902,259,505</u>	<u>1,004</u>

30. COMMITMENTS

On 25 February 2015, the Corporation entered into a comprehensive cooperation agreement with Tien Phong Commercial Joint Stock Bank for supporting students who join the training courses under the 10,000 Bridge Software Engineer program. This program aims to train Japanese (in 6-12 month courses) for 10,000 students in Japan in the next few years. The students who participate in this training course in Japan will be rewarded financial guarantee by the Corporation equivalent to 90% of their total credit obligations arising at the Bank, with a maximum credit limit of VND 500 million per person. As at 31 March 2022, the number of students participating in the program in Japan are 71, and the total estimated guarantee amount is correspondingly VND 7,144,973,285.

31. COMPARATIVE FIGURES

Comparative figures of the consolidated balance sheet are the figures in the audited consolidated financial statements for the year ended 31 December 2021. Comparative figures of the consolidated income statement and consolidated cash flow statement are the figures in the consolidated financial statements for the period from 01 January 2021 to 31 March 2021.

Certain comparative items presented in the consolidated financial statements for the period from 01 January 2022 to 31 March 2022 have been reclassified to conform to the presentation of the financial statements for the current period as follows:

The consolidated cash flow statement (extracted):

ITEMS	Codes	For the period from 01 January 2021 to 31 March 2021		
		Reported VND	Adjustment (*) VND	As reclassified VND
